Description

We have a new employee starting Monday and need their Active Directory account, email access, VPN permissions, and shared drive access configured before their first day.

Comments

Comment by com.cylo7 [06/May/26]
Received onboarding request for new employee requiring Active Directory account creation, Microsoft 365 access, VPN permissions, and department shared drive access prior to start date.
Comment by com.cylo7 [06/May/26]
Created Active Directory account following standard naming conventions and assigned temporary password with password change required at first login. Added user to department security groups and VPN access group.
Comment by com.cylo7 [06/May/26]
Verified Microsoft 365 mailbox provisioning and MFA enrollment readiness. Confirmed user account, email access, and shared drive permissions successfully configured.
Comment by com.cylo7 [06/May/26]
Completed onboarding account provisioning including Active Directory account creation, Microsoft 365 access, VPN permissions, shared drive access, and MFA setup preparation. User access ready for first-day onboarding.
